Featuring

The New Giant Jersey Gem Viola

(OUR OWN INTRODUCTION)

A wonderful new seedling from Jersey Gem, the stem is longer, the flower, a beautiful rich shade of purple, is larger and more perfectly formed. In the hot weather, the past summer, THE NEW GIANT JERSEY GEM bloomed continuously when all other Violas stopped.

This plant of dwarf, compact habit, grows in any soil with plenty of sun and is absolutely free of the sprawly habit, which is characteristic of the old Jersey Gem plants.

HEDGE PLANTS

A living fence, made from growing plants, attractive with their green leaves and formally trained or arched branches, is a part of the grounds and garden, and is surely more ornamental than an artificial fence. A hedge is permanent. Once planted only occasional trimming or shearing is required.
